

**CFE COMMENTS FOR**

**ECON-UB.0001**

**PROFESSOR PEREGO**

**1. Do you have any other comments for your instructor or additional constructive feedback that would help improve future students' learning?**

---

**SPRING 16**

**Section A**

- Going to recitation really helped me learn the material from class. Jacopo sometimes presented the information in a different way that helped me understand it more.
- He was helpful sometimes
- Was a really good source for me to learn concepts because I didn't feel my professor was teaching me very well
- Improve communication between lecture teacher and recitation teacher.
- No comment
- Jacopo was very available in office hours and cleared up a lot of topics that I felt were confusing from lecture.
- Excellent instructor
- Great teacher
- NA
- I think those who had monday recitation should have been allowed to turn in homework during lecture as opposed to recitation.
- Extremely helpful and great at explaining the different topics.
- Very good TA. Willing to help!

**Section B**

- He answered questions thoroughly although sometimes was too abstract. He definitely helped me.
- I am pleased with how the course went.
- Jacopo was a great TA and was always there if I needed extra help.
- Good explanation and teaching
- As the teacher assistant, Jacopo was extremely helpful and always made time for me to attend his office hours. During recitation sections, he made full use of the class and tried to teach until the very last minute, which I very much appreciated. Although he tried to clarify all of my questions and my peers' questions, sometimes the way he communicated was confusing as well. I think the language barrier was difficult to overcome occasionally and he would say one word when he meant another. Overall, however, Jacopo helped me understand the concepts in Microeconomics that my professor failed to teach me during lectures.
- The professor was really friendly and was more than willing to address issues with our midterm and homework grading. He explained the material really well and made sure that everyone was on the same page.
- NA
- Going through the problems more clearly
- Probably try to anticipate the questions students may have with regards to the material being covered.

## **FALL 2015**

### **Section A**

- None.
- Teach the actual content along with solving problem sets.
- I believe if he came more prepared then the class would have been even better than it already was. However, he did help tremendously with being able to understand the concepts that I was confused on.
- Not really, I think you did a great job.
- Very helpful when I sent an email requesting help studying for the midterm. Funny and friendly during recitation sessions and made the 9:30 class very bearable. Helped us to understand how the test worked and what was being asked = I'm glad I picked Jacopo Perego for my recitation teacher when I signed up randomly during the summer for classes
- Should talk about things besides mathematics
- I love Jacopo
- Nice guy, we both hated the early recitation but very knowledgeable.
- Great TF!
- No.
- It was great being your student thank you for giving me the opportunity.

### **Section B**

- Going through how to solve each question on the problem sets and the proper way to format our answers was very helpful.
- I found my recitations to be very useful in clarifying and reinforcing the concepts covered in lectures.
- NA
- Good job overall
- No comments
- I think it would be more helpful if you came in with more advice on what previous students have struggled with.
- Professor Perego was great in explaining how to go through problems in the course.
- Did well
- I think having set answers will be more helpful for students because often times accepting more than one answer on the problem sets is confusing when it comes to quizzes and midterms/finals.
